About

Ridiculously Happy Ppl aren't perfect. They're not always polished. And they definitely don't care *what society says 'beautiful' looks like*. Instead, we care about living, about laughing, and about crying when it matters.

What I do? It was born from a deep love of creativity and a stubborn refusal to play by the rules. If this sounds like you, **or who you want to be**, you've contacted the right photographer.

I'm **Soph** (she/her)

I fundamentally believe that our culture does not create happy, healthy humans. Instead, it tries to stuff people into tiny boxes of what success and fulfilment look like. And I don't fit in *any* of them.

I use my work to spotlight what actually matters: **real people, real happiness, real connection, and the raw, honest moments** that make life worth smiling about.

Health

Protect your peace, nourish your body, and keep moving. Health is about feeling good, not looking good.

Mindfulness

Presence is where the good stuff lives. So pay attention—to people, to feelings, to what makes your heart sing.

Community

Find your fellow weirdos, lifting each other up, and creating spaces where no one has to pretend.

Diversity

Celebrate all bodies, identities, and love stories. Life is richer when everyone is invited to the damn party.

Kindness

Lead with empathy, give people grace on their worst days, and believe kindness is badass, not boring.

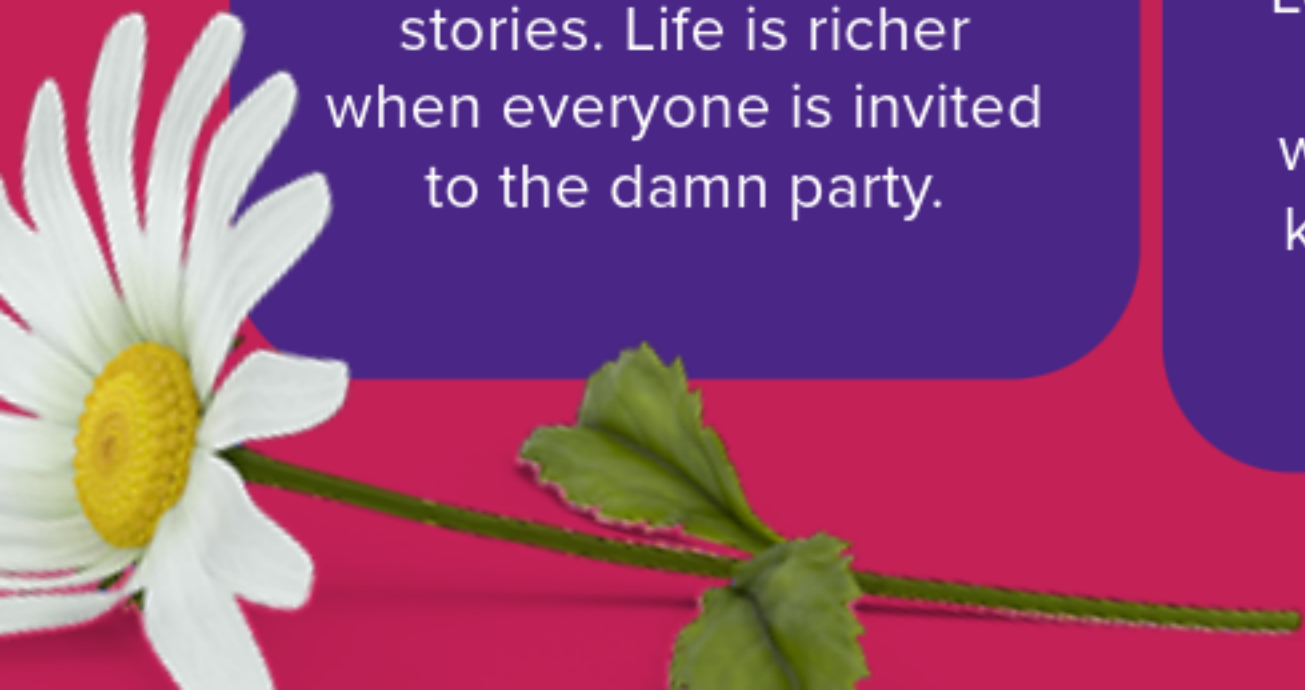

Fulfillment

Chase connection, alignment, belly laughs, quiet moments, and the work that actually feeds your soul.

My Values

My mission is to contribute to my clients' mental health and happiness. I prioritize authentic experiences over trying to look good. I am committed to representation. And I believe all individuals deserve to see themselves happy.

With my photos, prints, and podcast, I hope my ppl will love their true selves and find joy in their identities and individuality.

REAL PPL POLICY

Queerly **Beloved**

I'm here for overflowing hearts. LGBTQ+ and non-monogamous fams welcome.

Culture **Carriers**

Culture, colour, and character? My cameras capture all shades of happiness.

The Fully **Figured**

Smiles comes in all shapes and sizes. And I think all photograph beautifully.

TESTIMONIAL

Sophia was a pleasure to work with! She was well organised and asked all the questions we had no idea we even needed to think about. She communicated with all of our family members before and after which was a huge help!

But most importantly our wedding photos turned out STUNNING!!! We chose 3 things for our wedding that were most important that we weren't going to skimp on – one of those was photography and Sophia did not disappoint!

Process FAQs

What happens if you get sick, injured, or abducted by aliens? *I will do my best to find a replacement. And if I can't, I'll refund you in full. But I genuinely hope I get no visits from aliens...*

Can Uncle Bob take photos too? He has a fancy camera. *Yes he can! And I hope he has a sense of humour, because I might gently sass him if he blocks me.*

Should we feed you? *If I will be staying through your meal time, yes. I will need sustenance. None of us want me fainting at your session. That honour is reserved for groomsmen...*

Do you Photoshop us? Like... a lot? *No! I edit photos for colour and brightness. I will fully edit all printed photos and you can purchase additional editing, but basically no one asks for this.*

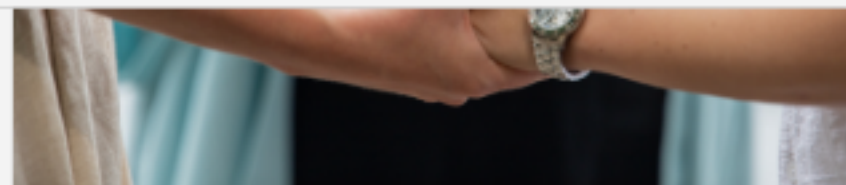

We've never done this before... How much can you help us with planning? *A lot! I've been photographing weddings for over 20 years—which totally makes me feel old. I'm also a total nerd about efficiency. So I can guide you in making your photography coverage fit whatever dream plans you have.*

Can we print the photos? Post them? Make a weird collage for our dog's birthday? *Yes you can! This is built right into the Canadian Copyright Act: your photographer owns the copyright, and you get to do whatever you want with your copies. Except for selling them, of course. So don't let other photographers or print labs tell you otherwise.*

How many photos will we get? *Basically all of them. Except the ones you look ridiculous in... but those might go in a super special blooper folder for funzies.*

TESTIMONIAL

Having a photographer capture all the little moments of our wedding is quite intimate and so choosing someone that you are comfortable with is so important. Due to COVID, all of our interactions before the day were over zoom but from the very start, Sophia made herself available to answer all of our questions, find out about us, our story, and what was important to us on that day.

Meeting on that day honestly felt like we were meeting a friend.

Pricing FAQs

Do you charge HST? *Yes I do!*

What payment methods do you accept?

Cash, cheque, e-transfer, and credit card. Credit card payments are subject to processing fees.

Do you charge for travel? *Travel for sessions in Bruce, Grey, Simcoe, and Muskoka is included with all packages. Outside of these areas, I may charge travel fees at \$1 per km—invoiced after your session. You will be responsible for parking and toll road expenses, and accommodations if I will need to spend the night.*

Do you charge for additional editing?

Your photos will be edited for exposure and colour correction. Additional editing is included with all printed artwork and high-res purchases on request.

What is our payment schedule? *You get to pick! To make things easier for you, you'll choose the payment schedule that works for you.*

Why are high-res digitals not included by default? *In 15 years running this business, so few of my clients have DIY'd large-scale prints. But so many have lost their digital images due to harddrives breaking. To make things easy for everyone, I provide high-quality prints and digitals that can be printed small-scale.*

What if we change the date, cancel, or ghost you because we ran off to Vegas? *If I'm available for your new date, we'll update your contract and take it from there. If I am not available, but I can rebook your original date, you'll get a full refund. If I cannot, there will be no refunds.*

TESTIMONIAL

Leon and I were very lucky to have Sophia photograph our wedding this past summer.

We had a budget conscious 1 hour shoot at the Arboretum in Collingwood. The scenery, lighting, and overall results were amazing! Thank you so much for capturing a special moment in our lives. Thank you as well for all of the pre-organization and follow-up too. Now we'll need to get some baby shots this coming summer...

SECTION 4

Booking

A decorative graphic on the right side of the slide. It features a stylized rainbow with multiple bands of color (purple, blue, green, yellow, orange, red) curving upwards. Below the rainbow, the large white numbers '04' are visible, with the rainbow passing through them. Above the word 'Booking', there are three short, thick orange lines radiating outwards, resembling a sunburst or a star.

If you haven't already, your very first move is to book your first meeting with yours truly. We'll cover the logistics, build your package, and make sure we vibe. *Because I **really** want you to work with someone you like.*

Once we're both doing happy dances, you'll choose your payment schedule, sign your contract, and make your first installment to make this thing official.

TESTIMONIAL

For two people who are SO nervous in front of the camera, Sophia made it fun and easy-going. Throughout our wedding day there were some hiccups with guests (and maybe the wedding party!) but Sophia handled everything and we were able to share a laugh afterwards!

I highly recommend using Sophia Lemon's photography skills... and following her on social media, she has great posts and CUTE pets!! We will be recommending her to everyone...
